🐙 github.com/enesbek

Frontend Engineer with 4 years of experience in React, TypeScript, and scalable UI architecture. Delivered system-level UI at Huawei (HarmonyOS) and production-scale dashboards at Doğuş Teknoloji. Fluent across the full stack — AWS, Node.js, CI/CD — and effective in both startup and enterprise environments.

Professional Experience

Frontend Engineer, Huawei ⓘ

2025/04 – Present
Ankara, Turkey

- Developed and maintained UI features on **HarmonyOS** using **ArkTS** and **TypeScript**, focusing on system-level user interactions.
- Implemented and optimized folder animations and edit-mode behaviors to improve user experience and responsiveness.
- Identified and resolved UI-related bugs and performance issues within core system components.
- Authored technical and non-technical documentation to support internal development processes.
- Built a **Node.js**-based internal tool to parse and analyze memory leak logs, reducing average debug time from ~15 minutes to under 2 minutes with more reliable results.
- Collaborated within cross-functional teams on cross-platform solutions.

Full Stack Engineer, PONS ⓘ

2024/05 – 2025/04
Istanbul, Turkey

- Developed and maintained scalable backend services using **AWS CDK** and **TypeScript**.
- Implemented secure authentication and authorization flows with **AWS Cognito** and **Lambda**.
- Designed RESTful APIs with **API Gateway** and **DynamoDB**, ensuring reliable and scalable data handling.
- Set up **CI/CD** pipelines using **AWS CodePipeline**, reducing manual deployment effort and improving release consistency.

Frontend Engineer, Doğuş Teknoloji ⓘ

2022/05 – 2024/03
Istanbul, Turkey

- Built and maintained scalable admin panels using **React.js**, **TypeScript**, **Redux**, and **Material UI**.
- Led the development of a real-time vehicle tracking dashboard with map integrations, visualizing live movements of 500+ vehicles simultaneously.
- Reduced data table load time by %80~ on high-volume datasets through API optimization, pagination, memoization, and virtualized rendering.
- Acted as Scrum Master, facilitating agile ceremonies and improving team collaboration and delivery efficiency.

Full Stack Engineer Intern, *Modanisa* [↗](#)

2021/10 – 2022/03

Istanbul, Turkey

- Conducted technical research and built sample projects using **HTML**, **CSS**, **JavaScript**, **Vue.js**, and **Go**.
- Explored testing practices such as unit and end-to-end testing, along with **TDD** fundamentals.
- Gained hands-on experience with **CI/CD** processes using **CircleCI** and **Google Cloud Platform**.

Education

Bachelor's Degree / Computer Engineering,

2017/09 – 2022/06

Fatih Sultan Mehmet Vakıf University [↗](#)

Istanbul, Turkey

Study Abroad (Erasmus) / Computer Science, *University of Bielsko-Biala* [↗](#)

2019/09 – 2020/02

Bielsko-Biala, Poland

Organizations

FSMVU IAESTE, *Founder*

2021/01 – 2022/02

- Founded and led the FSMVU IAESTE Club for 2 years.

Istanbul, Turkey

Skills

- **Frontend:** React, Next.js, TypeScript, JavaScript (ES6+), Redux, Vue.js
- **Styling:** Tailwind CSS, SCSS, Styled Components
- **Architecture & Performance:** Component Architecture, Reusable Component Design, Memoization, Rendering Optimization, Large-Scale Data Handling
- **Testing:** Jest, React Testing Library, Selenium
- **Backend:** Node.js, RESTful APIs, AWS Lambda, API Gateway
- **Cloud & DevOps:** AWS CDK, AWS CodePipeline, Docker, CI/CD
- **Tools:** Git, Webpack, Figma
